EXPÉRIENCE

TEMPERATURE/HUMIDITY PANEL • IT PROJECT • 15H

In a team of 4, I made a program on **C++** which use an Arduino **EPS32** temperature and humidity captor and make it appear as a graph on a Touchscreen, I made functions to see the evolution of temperatures versus time with **FreeCharts**.

DATABASE CREATION • IT PROJECT • 15H

In a team of 2, I had to create a **Database** for a Sport association, I created the **Database** in **SQL**, created the roles privileges and requests that were useful for the association.

FORMATION

B.U.T INFORMATIQUE • 2021 - 2024 • IUT CLAUDE BERNARD LYON 1

A 3 years course in computer science after High School

BACCALAURÉAT GENERAL • 2020 • LYCEE JEROME LANDE
